MStim Sport
LGT-232

Technical Specifications		
	CE Version	FDA Version 510(K) Number: K201845
Pulse Duration	50-300μs	200-400μs
Pulse Frequency	1-120Hz	1-120Hz
Intensity	0 - 80mA	0 - 100mA
Battery Life	More than 4 hours	More than 4 hours

MStim Sport LGT-232

MStim Sport LGT-232 uses low frequency electric stimulation (NMES and TENS), help professional athletes or fitness, sports enthusiasts who with higher requirements on muscle performance, help them enhance muscle ability, improve athletic performance, relieve muscle soreness after exercise.

Applications

- Body shaping
- Relieve exercise pain
- Increase athletic performance: endurance, strength, explosive force

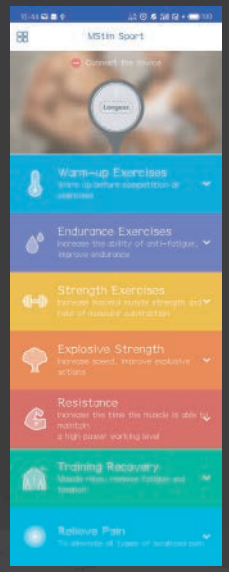
Device Place

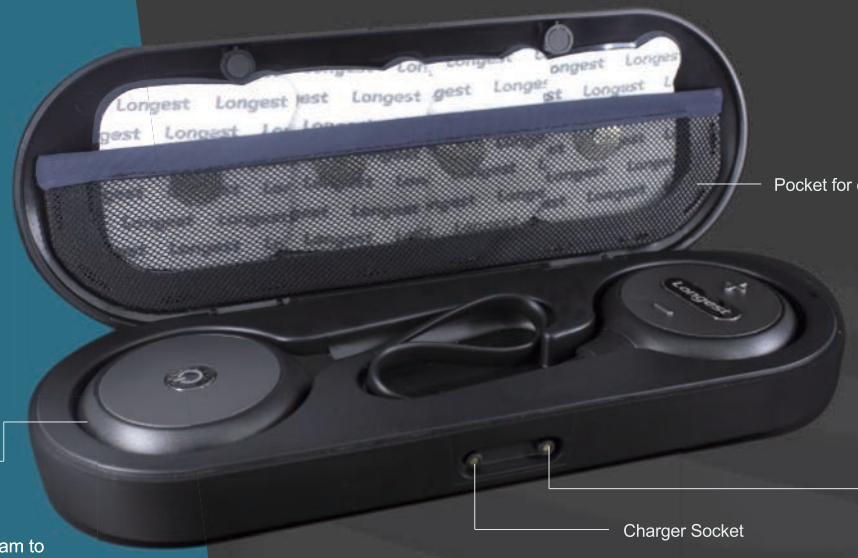
- Electrodes Placement Guidance

A large number of muscle patch diagram to facilitate the correct placement of muscle position

Features

- Portable device. Not only can do treatment with the app, but can also be used without app.
- Wireless connection. Magnetic buckle electrode.
- Charge Box
- 7 Programs





Pocket for electrodes

Four devices can be used and charged at the same time

Charger Socket

- Intelligent muscle recognition

Different parameters to stimulate → Muscle contraction vibration → Sensor detection → Comfortable pulse width and intensity

With intelligent muscle recognition function, automatic output pulse width and intensity, no need to adjust any parameters, you can start muscle training.
