## LGT-1200 Series

Electrodes for physical therapy

**Longest**

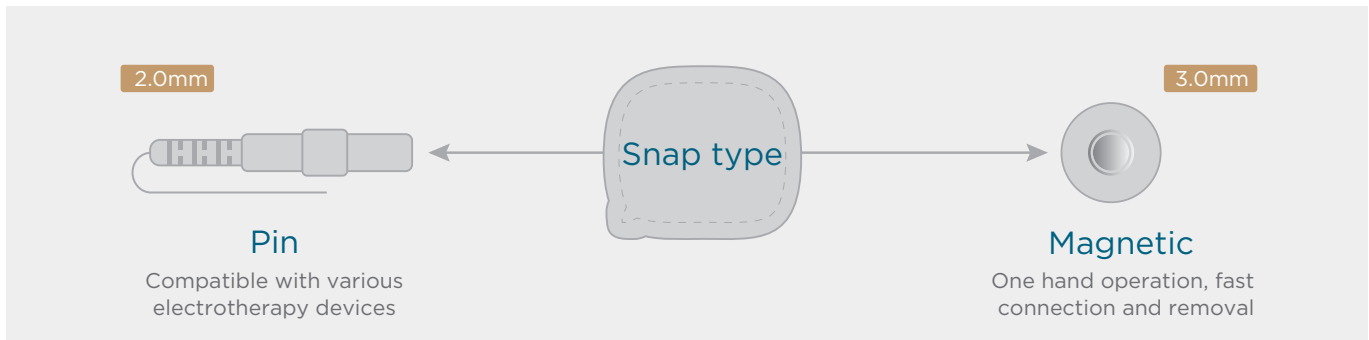

# LGT-1200 Series

Electrodes for physical therapy

## ⊕ Description

Electrode is an important accessory to the low and medium frequency current physiotherapy device, widely used in various departments of rehabilitation, physiotherapy, neurology, traditional Chinese medicine, gynecology, obstetrics, pediatrics, etc. Compared with the traditional conductive silicone rubber electrode, the self-adhesive conductive electrode gets rid of the complex and tedious bundling procedures and reduce cross connection, significantly promoting the development of physiotherapy & rehabilitation

## ⊕ Types

Pin 2.0mm

LGT-1200Z F80130C  
Square-shaped 80×130mm

LGT-1200Z D5085C  
Butterfly-shaped 50×85mm

LGT-1200Z F5050C  
Square-shaped 50×50mm

## ⊕ Features

Magnetic 3.0mm

LGT-1200Z F5090M  
Square-shaped 50×90mm

LGT-1200Z F5050M  
Square-shaped 50×50mm

LGT-1200Z D5085M  
Butterfly-shaped 50×85mm

LGT-1200Z S65135M  
Fan-shaped 65×135mm

LGT-1200Z F80130M  
Square-shaped 80×130mm
